#### INDEPENDENT AUDITOR'S REPORT

September 8, 2014

Honorable Board of Town Commissioners Town of Ripley Ripley, Oklahoma

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Town of Ripley, Oklahoma, (Town) as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Basis for Qualified Opinions

As discussed in Note 1 to the financial statements, the Town has not maintained complete capital asset records to support the historical cost of past capital asset purchases. Accounting principles generally accepted in the United States of America require that capital assets be recorded at historical cost net of accumulated depreciation. Documentation supporting historical cost was not readily available for our review. The amount by which this departure would affect the assets, net assets, and expenses of the Governmental and Business-Type Activities is not readily determinable.

#### **Qualified Opinions**

In our opinion, except for the effects of the matter described in the "Basis for Qualified Opinions" paragraph, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental and business-type activities of the Town of Ripley, Oklahoma, as of June 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Town of Ripley September 8, 2014

#### **Unmodified Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of each major governmental fund and the aggregate remaining governmental fund information of the Town of Ripley, Oklahoma, as of June 30, 2014, and the respective changes in financial position, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that budgetary comparison information on pages 25 through 26 and the notes on page 27 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance

The Town has omitted Management's Discussion and Analysis that accounting principles generally accepted in the United States of America requires to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board (GASB), who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The schedule of expenditures of state and federal awards is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The schedule of expenditures of state and federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of state and federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated September 8, 2014, on our consideration of the Town's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Town's internal control over financial reporting and compliance.

## NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2014

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Town of Ripley, Oklahoma (Town) complies with accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established in GAAP and used by the Town is discussed below.

#### A. Reporting Entity

The Town of Ripley, Oklahoma was organized under the statutes of the State of Oklahoma. The Town operates under a council form of government and is governed by a five-member board of commissioners. The commissioners elect the mayor from their own body. The Town provides the following services as authorized by its charter: general government, public safety (fire and police), streets, public works (gas, water, sewer, and refuse), judicial, health and social services, culture, parks and recreation, public improvements, and planning and zoning for the geographical area organized as the Town of Ripley, Oklahoma.

As required by generally accepted accounting principles, these financial statements present the activities of the Town and its component units, entities for which the Town is considered to be financially accountable. Blended component units, although legally separate entities are, in substance, part of the Town's operations and so data from these units are combined with the data of the primary government.

#### Blended Component Units:

The Ripley Public Works Authority (PWA) was created pursuant to a Trust Indenture dated April 6, 1979 to provide improvements to the natural gas system and facilities for the benefit of the Town of Ripley, Oklahoma. The public works systems owned by the Town have been leased to the Trust. The PWA is a public trust and an agency of the State of Oklahoma under Title 60, Oklahoma Statutes, and is governed by a board consisting of five trustees identical with the Town Council. The PWA is exempt from state and federal Income taxes. The PWA is reported as an enterprise fund.

#### B. Measurement Focus, Basis of Accounting and Basis of Presentation - Fund Accounting

The Town's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information. Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting.

**Government-wide Financial Statements** – The statement of net position and the statement of activities display information about the Town as a whole. These statements include the financial activities of the primary government. The statements distinguish between those activities of the Town that are governmental and those that are considered business-type activities.

The statement of net position presents the financial condition of the governmental and business-type activities at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the Town's governmental activities and for the business-type activities of the Town. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on program revenues are presented as general revenues of the Town, with certain limited exceptions.

## NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2014

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### B. Measurement Focus, Basis of Accounting and Basis of Presentation – Fund Accounting (Continued)

The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the Town.

**Fund Financial Statements** — During the year, the Town segregates transactions related to certain Town functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the Town at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Major funds represent 10% of assets, liabilities, revenues, or expenditures of the corresponding element for all funds of that category *and* is at least 5% of the corresponding element total for all governmental and enterprise funds combined *or* is a fund that the government believes is important enough for financial statement users to be reported as a major fund. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

**Fund Accounting** – The accounts of the Town are organized and operated on the basis of funds. A fund is an independent fiscal accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. There are three categories of funds: governmental, proprietary and fiduciary.

Governmental Funds — are used to account for the government's general government activities. Governmental fund types use the flow of current financial resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The government considers all revenues available if they are collected within 60 days after year-end. Expenditures are recorded when the related fund liability is incurred, except for certain compensated absences, claims, and judgments which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Sales taxes, gasoline excise taxes and motor vehicle taxes collected and held by the state and county at yearend on behalf of the Town are susceptible to accrual and are recognized as revenue. Other receipts and taxes (franchise taxes, licenses, etc.) become measurable and available when cash is received by the government and are recognized as revenue at that time.

Entitlements and shared revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria are met. Expenditure driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met. The following is the Town's major governmental fund:

<u>General fund</u> – is the general operating fund of the Town. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Other governmental fund of the Town that is considered a non-major fund includes:

<u>Special Revenue funds</u> – account for revenue sources that are designated to expenditures for specific purposes (not including expendable trusts or major capital projects). The Street and Alley Fund is the Town's only Special Revenue Fund. Management has elected to present this fund as a major in the financial statements.

## NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2014

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### B. Measurement Focus, Basis of Accounting and Basis of Presentation – Fund Accounting (Continued)

**Proprietary funds** - are accounted for on the flow of economic resources measurement focus and use the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. In compliance with the Governmental Accounting Standards Board (GASB) Statement No. 20, the Town has elected to only apply Financial Accounting Standards Board (FASB), Accounting Principles Board (APB) and Accounting Research Board (ARB) standards issued on or before November 30, 1989 that do not conflict with GASB. Proprietary funds are classified as enterprise.

<u>Enterprise Funds</u> – are used to account for those operations that are financed and operated in a manner similar to private business where the intent of the governing body is for the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges, or where the governing body has decided that the determination of revenues earned, costs incurred and/or net income is necessary for capital maintenance, public policy or management accountability. The following is the Town's major Enterprise fund:

Ripley Public Works Authority – accounts for the operations of providing public works (water, sewer, gas distribution systems and refuse) to the Town.

There are no other enterprise funds of the Town to be considered non-major funds.

**Fiduciary funds** – account for assets held by the government in a trustee capacity or as an agent on behalf of others. Trust funds account for assets held by the government under the terms of a formal trust agreement. Agency funds are custodial in nature and does not present results of operations or have a measurement focus. Agency funds are accounted for using the modified accrual basis of accounting. This fund is used to account for assets that the government holds for others in an agency capacity. The Town's only Agency fund is the Customer Meter Deposit Fund. Interest earnings from the Meter Deposit Fund are transferred to the General Fund.

#### C. Assets, Liabilities and Equity

#### 1. Deposits and Investments

Oklahoma Statutes authorize the Town to invest in certificates of deposit, repurchase agreements, passbooks, bankers' acceptances, and other available bank investments provided that all deposits are fully covered by approved securities pledged to secure those funds. In addition, the Town can invest in direct debt securities of the United States unless law expressly prohibits such an investment.

For financial statement presentation and for purposes of the statement of cash flows, the Town's cash and cash equivalents are considered to be cash on hand, demand deposits and certificates of deposit with a maturity date of three months or less. Debt instruments with a maturity date of more than three months are considered to be investments. Investments are stated at cost.

## NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2014

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued

#### C. Assets, Liabilities and Equity (continued)

#### 2. Restricted Cash and Investments

The restricted cash and investments are the result of financial requirements of two promissory notes between the Ripley Public Works Authority and the United States Department of Agriculture, Rural Development and consist of funds held in a Debt Service Fund, Reserve Fund-Water, Reserve Fund-Gas and a Maintenance Reserve Fund. Under the terms and provisions of the promissory notes, these special funds are maintained with the Trustee bank for the benefit of the holders of the notes. These funds are to be maintained so long as the notes are outstanding. Monies contained in the funds held by the Trustee are required to be continuously invested in authorized securities that mature not later than the respective dates when the funds shall be required for the purpose intended by the notes.

#### 3. Fair Value of Financial Instruments

The Town's financial instruments include cash and cash equivalents, investments, accounts receivable and accounts payable. The Town's estimates of the fair value of all financial instruments do not differ materially from the aggregate carrying values of its financial instruments recorded in the accompanying statement of net position. The carrying amount of these financial instruments approximates fair value because of the short maturity of these instruments.

#### 4. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### 5. Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due from other/due to other funds".

#### 6. Inventories

Inventories in both governmental funds and proprietary funds normally consist of minimal amounts of expendable supplies held for consumption. The costs of governmental fund type and proprietary fund type inventories are recorded as expenditures when purchased rather than when consumed.

#### 7. Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported in the business-type activities column of the government-wide statement of net position and in the respective funds.

## NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2014

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### C. Assets, Liabilities and Equity (Continued)

#### 7. Capital Assets (Continued)

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The Town maintains a capitalization threshold of \$500. The Town's infrastructure consists of roads, bridges, culverts, curbs and gutter, streets and sidewalks, drainage system, lighting systems and similar assets that are immovable and of value only to the Town. Such infrastructure assets acquired after July 1, 2003 are capitalized in accordance with the requirements of GASB 34. Improvements are capitalized; the costs of normal maintenance and repairs that do not add value of the asset or materially extend an asset's life are not capitalized.

Major outlays for capital assets and improvements are capitalized in proprietary funds as projects are constructed. Interest incurred during the construction phase of proprietary fund capital assets is reflected in the capitalized value of the asset constructed, net of interest earned on the invested proceeds over the same period.

All reported capital assets are depreciated except for land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets.

Depreciation is computed using the straight-line method over the following estimated useful lives:

Description	Governmental Activities Estimated Lives	Business-Type Activities Estimated Lives
Building Improvements	40 - 100 years	40 - 100 years
Equipment	5 - 100 years	5 - 100 years
Water System	10 - 40 years	10 - 40 years
Gas System	10 - 40 years	10 - 40 years
Sewer System	10 - 40 years	10 - 40 years

The Town has not maintained complete capital asset records to support the historical cost of past capital asset purchases. Accounting principles generally accepted in the United States of America require that capital assets be recorded at historical cost net of accumulated depreciation.

#### 8. Compensated Absences

It is the Town's policy to permit employees to accumulate earned but unused vacation time. Full-time regular employees are granted vacation and sick leave benefits in varying amounts to specified maximums depending on tenure with the Town. The Town has not accrued compensated absences because the amount, if any, would not be material to the financial statements.

The accounting and reporting treatment applied to long-term liabilities associated with a fund are determined by its measurement focus. All governmental fund types are accounted for on a spending "financial flow" measurement focus. This means that only current assets and current liabilities are generally included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of "available spendable resources". Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

### NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2014

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### C. Assets, Liabilities and Equity (Continued)

#### 9. Long-term Obligations

All proprietary funds are accounted for on a cost of services or "capital maintenance" measurement focus. This means that all assets and liabilities (whether current or non-current) associated with their activity are included on their balance sheets. Therefore, long-term debt and other obligations financed by proprietary funds are reported as liabilities in the appropriate funds.

#### 10. Net Position/Fund Balances

In the government-wide financial statement, net position represents the difference between assets and liabilities. Net position invested in capital assets, net of related debt, consists of capital assets, reduced by the outstanding balances of any borrowing used for the acquisition, construction, or improvement of those assets. Net position are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, laws or other governments, or are imposed by law through constitutional provisions or enabling legislation.

In the fund financial statements, governmental funds report the hierarchy of fund balances. The hierarchy is based primarily on the degree of spending constraints placed upon use of resources for specific purposes versus availability of appropriation. An important distinction that is made in reporting fund balance is between amounts that are considered *non-spendable* (i.e., fund balance associated with assets that are *not in spendable form*, such as inventories or prepaid items, long-term portions of loans and notes receivable, or items that are legally required to be maintained intact (such as the corpus of a permanent fund)) and those that are *spendable* (such as fund balance associated with cash, investments or receivables).

Amounts in the *spendable* fund balance category are further classified as *restricted*, *committed*, *assigned* or *unassigned*, as appropriate.

**Restricted** fund balance represents amounts that are constrained either externally by creditors (such as debt covenants), grantors, contributors or laws or regulations of other governments; or by law, through constitutional provisions or enabling legislation.

**Committed** fund balance represents amount that are useable only for specific purposes by formal action of the government's highest level of decision-making authority. Such amounts are not subject to legal enforceability (like restricted amounts), but cannot be used for any other purpose unless the government removes or changes the limitation by taking action similar to that which imposed the commitment. The Town Ordinance is the highest level of decision-making authority of the Town.

**Assigned** fund balance represents amounts that are *intended* to be used for specific purposes, but are neither restricted nor committed. Intent is expressed by the governing body itself, or a subordinated high-level body or official who the governing body has delegated the authority to assign amounts to be used for specific purposes. Assigned fund balances includes all remaining spendable amounts (except negative balances) that are reported in governmental funds *other than the general fund*, that are neither restricted nor committed, and amounts in the general fund that are intended to be used for specific purpose in accordance with the provisions of the standard.

## NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2014

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### C. Assets, Liabilities and Equity (Continued)

#### 10. Net Position/Fund Balances (Continued)

**Unassigned** fund balance is the residual classification for the general fund. It represents the amounts that have not been assigned to other funds, and that have not been restricted, committed, or assigned to specific purposes within the general fund.

#### 11. Resource Use Policy

It is in the Town's policy for all funds that when an expenditure/expense is incurred for purposes for which both restricted and unrestricted resources, including fund balances, are available, the Town considers restricted amounts to be spent first before any unrestricted amounts are used. Furthermore, it is the Town's policy that when an expenditure/expense is incurred for purposes for which committed, assigned, or unassigned resources, including fund balances, are available, the Town considers committed amounts to be spent first, followed by assigned amounts and lastly unassigned amounts.

#### 2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

#### A. Grants and Awards

The Town was the recipient of the following grants during the year.

1. The Oklahoma Department of Agriculture, Food and Forestry Services distributed \$4,474 to the Town during the year. The funding is in support of rural fire defense.

#### 3. DETAILED NOTES CONCERNING THE FUNDS

#### A. Deposits and Investments

Custodial Credit Risk

At June 30, 2014, the Town held deposits of approximately \$217,728 at financial institutions. The Town's cash deposits, including interest-bearing certificates of deposit, are entirely covered by Federal Depository Insurance (FDIC) or direct obligation of the U.S. Government insured or collateralized with securities held by the Town or by its agent in the Town's name.

Investment Interest Rate Risk

The Town does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Investment Credit Risk

The Town has no policy that limits its investment choices other than the limitation of state law as follows:

a. Direct obligations of the U.S. Government, its agencies and instrumentalities to which the full faith and credit of the U.S. Government is pledged, or obligations to the payment of which the full faith and credit of the State is pledged.

## NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2014

#### 3. DETAILED NOTES CONCERNING THE FUNDS (Continued)

#### A. Deposits and Investments (Continued)

- b. Certificates of deposits or savings accounts that are either insured or secured with acceptable collateral with in-state financial institutions, and fully insured certificates of deposit or savings accounts in out-of-state financial institutions.
- c. With certain limitation, negotiable certificates of deposit, prime bankers acceptances, prime commercial paper and repurchase agreements with certain limitations.
- d. County, municipal or school district tax supported debt obligations, bond or revenue anticipation notes, money judgments, or bond or revenue anticipation notes of public trusts whose beneficiary is a county, municipality or school district.
- e. Notes or bonds secured by mortgage or trust deed insured by the Federal Housing Administrator and debentures issued by the Federal Housing Administrator, and in obligations of the National Mortgage Association.
- f. Money market funds regulated by the SEC and in which investments consist of the investments mentioned in the previous paragraphs (a.-d.).

The investments held at June 30, 2014 are as follows:

Туре	Maturity (Months)	Credit Rating		Market Value	Cost
Investments Certificate of Deposit Total Investments	12.00	N/A	\$	26,884 26,884 \$	26,884 26,884
	Reconciliation	n to Stateme	ent of Net	Position	
	Fiduciary Fund	s	\$	16,600	
	Business-Type	Activites		10,284	
			\$	26,884	

#### Concentration of Investment Credit Risk

The Town places no limit on the amount it may invest in any one issuer. The Town has the following credit risk: 100% in Certificates of Deposit.

## NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2014

### 3. DETAILED NOTES CONCERNING THE FUNDS (continued)

#### B. Capital Assets

The Business-Type capital asset activity for the year ended is as follows:

Governmental Activities: Building Improvements Vehicles - Fire Equipment Equipment Total Depreciable Assets	\$ Balance 6/30/2013 27,567 260,574 82,010 370,151	Additions	Disposals	Balance 6/30/2014 27,567 260,574 82,010 370,151

Depreciation expense was charged to unallocated depreciation and not charged as a direct expense of the various programs.

## NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2014

#### 3. DETAILED NOTES CONCERNING THE FUNDS (continued)

#### C. Inter-fund Receivables and Payables

The following schedule reflects the Town's inter-fund due from and due to other funds:

General Fund	-	-
Ripley Public Works Authority	-	49
Meter Fund	49	-
Total all funds	\$ 49 \$	49

#### D. Long-term Debt

The Town is not obligated in any manner for the debt of its component units. The following is a summary of long-term debt transactions of the proprietary fund:

	Balance June 30,			Balance June 30,
	2013	 Additions	 Reductions	 2014
USDA Rural Dev water	\$ 28,334	\$ -	4,825	\$ 23,510
Total	\$ 28,334	\$ _	\$ 4,825	\$ 23,510

#### a. Long-term debt consists of:

A 40-year, 5% note with USDA Rural Development, payable in monthly installments of \$511, maturing April 5, 2019.

b. The conditions prescribed by the security agreement with USDA Rural Development are as follows:

As security for the notes payable to the USDA Rural Development, the Town of Ripley and the Ripley Public Works Authority have pledged the plant and equipment of the water and gas systems. Gross revenues of these facilities have been pledged as security for note and interest payments when due.

The annual debt service requirements to maturity are as follows:

Year Ending					
June 30,		Principal	Interest		Totals
2015	\$	5,071	1,061	-	6,132
2016		5,331	801		6,132
2017		5,604	528		6,132
2018		5,890	242		6,132
2019		1,613	14		1,627
Total	\$_	23,509 \$	2,646	\$	26,155

## NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2014

#### 3. DETAILED NOTES CONCERNING THE FUNDS (continued)

#### E. Restricted Cash

Certain cash and temporary investments are designated for use as prescribed by the security agreement between the Ripley Public Works Authority and the United States Department of Agriculture, Rural Development. Those restrictions and current balances are as follows:

	June	30, 2014
Debt Reserve Account - Water:		
This account is established to accumulate transfers from the Revenue Fund		
account at the rate of \$51 per month until a balance of \$6,132 is reached.		
Disbursements are restricted to paying the cost of repairing or replacing any		
damage to the facility which may be caused by an unforeseen catastrophe,		
or for making extensions, with prior approval from the government.		6,132
Total	\$	6,132

#### 4. OTHER INFORMATION

#### A. Risk Management

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; employee health benefits; and natural disasters. The Town purchases commercial insurance to cover these and other risks. Settled claims resulting from these risks have not exceeded the commercial insurance coverage in any of the past three fiscal years.

The Town is a member of the Oklahoma Municipal Assurance Group Workers' Compensation Plan (the Plan), an organization formed for the purpose of providing workers' compensation coverage through the State Insurance Fund to participating municipalities in the State of Oklahoma. In that capacity, the Plan is responsible for providing loss control services and certain fiscal activities, including obtaining contract arrangements for the underwriting, excess insurance agreements, claims processing, and legal defense for all claims submitted to it during the plan year.

As a member of the Plan, the Town is required to pay fees set by the Plan according to an established payment schedule. A Loss Fund has been established from the proceeds of these fees for each participant in the Plan. The State Insurance Fund provides coverage in excess of the Loss Fund so the Town's liability for claim loss is limited to the balance of that fund.

In addition to the Loss Fund, the Town maintains two additional funds with the Plan. The Rate Stabilization Reserve (RSR) is a non-refundable fund, which can reduce future premium increases. The Escrow Fund is made up of past refunds left on deposit with the Plan. Escrow funds earn interest and are readily available for use by the governing board. In accordance with GASB No. 10, the Town reports the required contribution to the pool, net of refunds, as insurance expense. The balances for 2013 and 2014 in the RSR Fund and the Escrow Fund are \$3,050 and \$0 respectively, and are reflected on the financial statements.

## NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2014

#### 4. OTHER INFORMATION (continued)

#### B. Contingent Liabilities

The governing board of the Town is not aware of any pending or threatened legal actions against it. However, any such actions would probably be covered by insurance.

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the Town expects such amounts, if any, to be immaterial.

#### C. Employee Retirement Plans

#### Description of the Plan

Only the Town's volunteer firemen are covered by a pension plan. This noncontributory plan is operated and administered by the Oklahoma Firefighters Pension and Retirement System (OFPRS). The Oklahoma Firefighters Pension and Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the fund. That report may be obtained by writing to Oklahoma Firefighters Pension and Retirement System, 4545 North Lincoln Blvd., Suite 265, Oklahoma City, OK 73105-3414, or by calling 1-800-525-7461.

#### Funding Policy

The Town is required to make annual contributions of \$60.00 per active volunteer fireman to OFPRS. This contribution covers a portion of the cost of benefits that will be paid to vested volunteer fireman. Additional funding comes from a percentage of all taxes collected on premiums collected by insurance companies and an appropriation by the State of Oklahoma.

The Town's contributions to OFPRS were \$780 for 2012, \$2580 for 2013, and \$2,444 for 2014.

#### D. Other Post-Employment Benefits

Plan Description: Town provides post-retirement benefit options for health care, prescription drug, dental and vision benefits for retired employees and their dependents that elect to make required contributions. The benefits are provided in accordance with State law, police and firefighter's union contracts and the Consolidated Omnibus Budget Reconciliation Act of 1985 (COBRA). The relationship for these benefits is not formalized in a contract or plan document, only a few sentences in the administrative policy. These benefits are considered for accounting purposes to be provided in accordance with a single employer substantive plan. A substantive plan is one in which the plan terms are understood by the Town and plan members. This understanding is based on communications between the employers and plan member and the historical pattern of practice with regard to the sharing of benefit costs.

Substantially all of the government's employees may become eligible for those post-retirement benefits if they reach normal retirement age while working for the Town. The plan is only provided for employees between the ages of 62 and 65. As of June 30, 2014, no retired employees are receiving benefits under this plan.

## NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2014

#### 4. OTHER INFORMATION (Continued)

#### D. Other Post-Employment Benefits (Continued)

Funding Policy. The contribution requirement of the Town is an implicit subsidy. The implicit subsidy is not a direct payment from the employer on behalf of the member but rather stems from retiree contribution levels that are less than the claims cost at retiree ages. Since claims experience for employees and non-Medicare eligible retirees are pooled when determining premiums, these retired members pay a premium based on a pool of members that, on average, are younger and healthier. There is an implicit subsidy from the employee group since the premiums paid by the retirees are lower than they would have been if the retirees were insured separately. The subsidies are valued using the difference between the age-based claims costs and the premium paid by the retiree. The amount required to fund the implicit rate is based on projected pay-as-you-go financing requirements. For fiscal year 2014, the Town contributed 0% to the plan for previously retired employees (0 retirees) and 0% of premiums on newly retired employees (0 retirees).

Annual OPEB Cost and Net OPEB Obligation. The Town's annual other post-employment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. GASB 45 requires entities with over 200 employees to have the actuarial valuation performed biennially. The Town is not required to perform the actuarial valuation of the OPEB cost and related OPEB obligation for the year ended June 30, 2014 since no one is participating at this time.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Actuarial Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

#### 5. SUBSEQUENT EVENTS

Management has evaluated subsequent events through the date of the audit report, which is the date the financial statements were available to be issued and has determined that no additional information needs to be added to the financial statements.

#### NOTES TO REQUIRED SUPPLEMENTAL INFORMATION Year Ended June 30, 2014 (Unaudited)

#### **BUDGETARY INFORMATION**

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America (GAAP) for all governmental funds. The enterprise fund adopts budgets on the non-GAAP basis wherein service fees, bond and note proceeds are recognized as revenue, principal payments on debt and capital expenditures are recognized as expenses, and depreciation expense is not budgeted. Annual appropriated budgets are not adopted for the fiduciary funds. Budgetary data for enterprise fund is not presented in these financial statements.

Prior to July 1, the City Administrator (not an elected official) submits a proposed operating budget for the fiscal year commencing July 1, to the Commissioners (elected officials). Public hearings are held at regular or special meetings to obtain taxpayer input. Prior to July 1, the budget is legally enacted through passage of a budget resolution. The operating budget, for all budgeted funds, includes proposed expenditures and the means of financing. Each fund's appropriated budget is prepared on a detailed line item basis. Revenues are budgeted by source. Expenditures are budgeted by department and class as follows: personal services, maintenance and operations, capital outlay, transfers, and debt service. This constitutes the legal level of control. Expenditures may not exceed appropriations at this level. A more detailed budget is used for operating purposes. All budget revisions at the legal level are subject to final approval by the City Council. Within these control levels, management may transfer appropriations without council approval. Revisions to the budget were made during the year in accordance with the provisions of the Oklahoma Statutes. All annual appropriations lapse at year-end.

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

September 8, 2014

Honorable Town Board Town of Ripley Ripley, Oklahoma

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Ripley, Oklahoma, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the Town of Ripley, Oklahoma's basic financial statements, and have issued our report thereon dated September 8, 2014. The report on governmental and business-type activities was qualified because of the lack of fixed asset records. Additionally, the Town did not present the Management's Discussion and Analysis required by the Governmental Accounting Standards Board.

#### Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses that we consider to be significant deficiencies as finding 14-1.

Town of Ripley September 8, 2014

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Town's Response to Findings

The Town's response to the findings identified in our audit is described in the accompanying schedule of findings and responses. The Town's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

#### SCHEDULE OF FINDINGS AND RESPONSES Year Ended June 30, 2014

#### 14-1. Internal Control - Segregation of Duties

<u>Criteria</u>: The segregation of duties and responsibilities between different individuals for custody of assets, recordkeeping for those assets and reconciliation of those asset accounts is an important control activity needed to adequately protect the Town's assets and ensure accurate financial reporting.

<u>Condition</u>: Presently the same individual is responsible for issuing purchase orders, writing checks, making deposits, posting transactions and reconciling the monthly bank statements. In addition, the same individual that receives payments is also responsible for billing and adjustment, and posting payments to subsidiary accounts receivable ledger.

<u>Cause</u>: The Town's limited size and staffing resources have made it difficult for management to provide sufficient staffing to fully segregate incompatible duties in a cost-effective manner.

<u>Effect or Potential Effect</u>: Without sufficient segregation of duties, the risk significantly increases that errors and fraud related to purchasing and depositing activities, including misappropriation of assets, could occur and not be detected within a timely basis.

<u>Recommendation</u>: We recommend that management should consider a formal evaluation of their risks associated with these procedures. In response to the identified risks, consideration should be given to identifying and implementing controls that could help mitigate the risks associated with lack of segregation of duties, such as providing increased management oversight and an independent reconciliation of accounts. For example, the entity might consider soliciting the assistance of independent volunteer labor to perform certain functions including performing compensating procedures where applicable.

<u>Responsible Official's Response</u>: The Town concurs with the recommendation, although, the cost to correct this condition might exceed the benefit, the Town will strive to make changes in procedures that will improve the overall lack of segregation of duties.
